EDUCATION

University of Arkansas — Sam M. Walton College of Business

2025 – 2029 (expected)

Honors College · 4.0 GPA — Chancellor's List, both semesters · McMillon Innovation Studio

Highland Park High School

2021 – 2025

EXPERIENCE

Developer & Facilities Support Intern — Integrity Marketing Group, via Hollis Bloom

Summer 2026

Fountain Place, Dallas, TX

- Built and deployed the facilities work-order platform that runs the building daily — intake by web, email, iOS, and Microsoft Teams; vendor scheduling, photo capture, and invoicing with ACH payments and QuickBooks sync.
- Built a Microsoft Teams bot (Bot Framework REST + AI tool-calling) that creates and tracks work orders, posts daily briefings, and files photos from chat.
- Platform remains in production; rollout underway across Integrity's Dallas locations.

Back-End Developer — Hollis Bloom

2019 – Present

Dallas, TX

- Develop and maintain production back-end infrastructure for client web projects — React, TypeScript, Supabase/Postgres, Cloudflare.
- Shipped an online donation system and fully responsive rebuilds for client sites, including Prison Chapels.

C Programmer — The Farah Law Firm

2023 – 2025

Dallas, TX

- Wrote a proprietary C program for large-scale data scraping, aggregation, archiving, and marketing distribution.
- Automated forcible-detainer legal workflows between firm and client; platform expanding to firms across Texas and Louisiana.

Founder — Dimensional Design 3D

2014 – 2020

- Started a 3D printing and design business at age eight; ran design, production, and sales through its own website.

PROJECTS

RH Agentic — Autonomous trading system on the Robinhood API; agents scan markets, run analysis, and place orders, reporting to an encrypted live dashboard. Python, JavaScript

Members Moments — Shoppable creator-video feed prototyped into the Sam's Club homepage; qualified through the pitch round and presented at McMillon Innovation Studio Demo Day, Spring 2026.

AVR Drone — Led development of an autonomous competition drone with A* pathfinding; 8th place, Bell Advanced Vertical Robotics nationals.

SKILLS

Languages: TypeScript, JavaScript, Python, C/C++, SQL · **Web & back end:** React, Node.js, Supabase/Postgres, Stripe, Cloudflare · **Hardware:** Arduino, KiCad/PCB design, 3D printing, AutoCAD
